INTRODUCTION

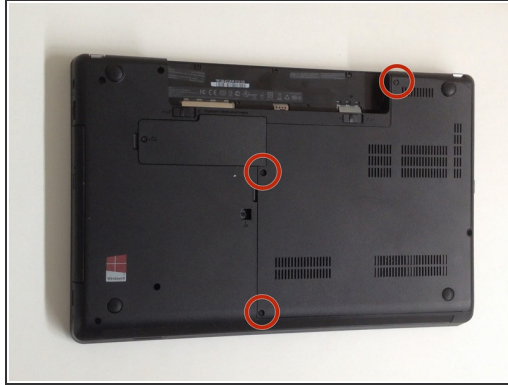

Lenovo ThinkPad Edge E530, E530c - how to change the Keyboard

[video: <http://youtu.be/MM-G4OkeagQ>]

TOOLS:

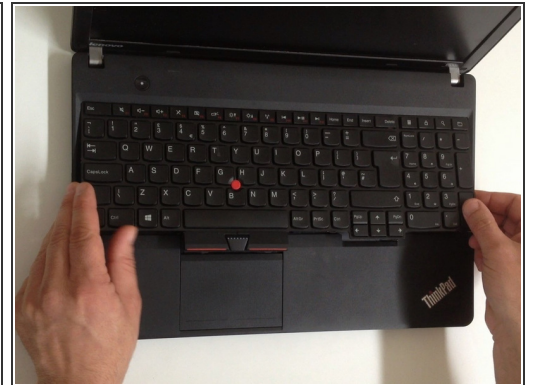

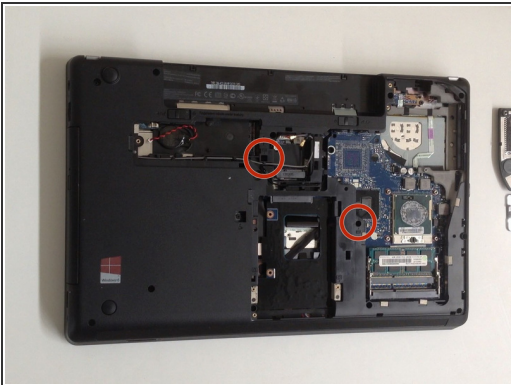

- [Phillips #0 Screwdriver](#) (1)
 - [Spudger](#) (1)
-

Step 1 — HDD Cover

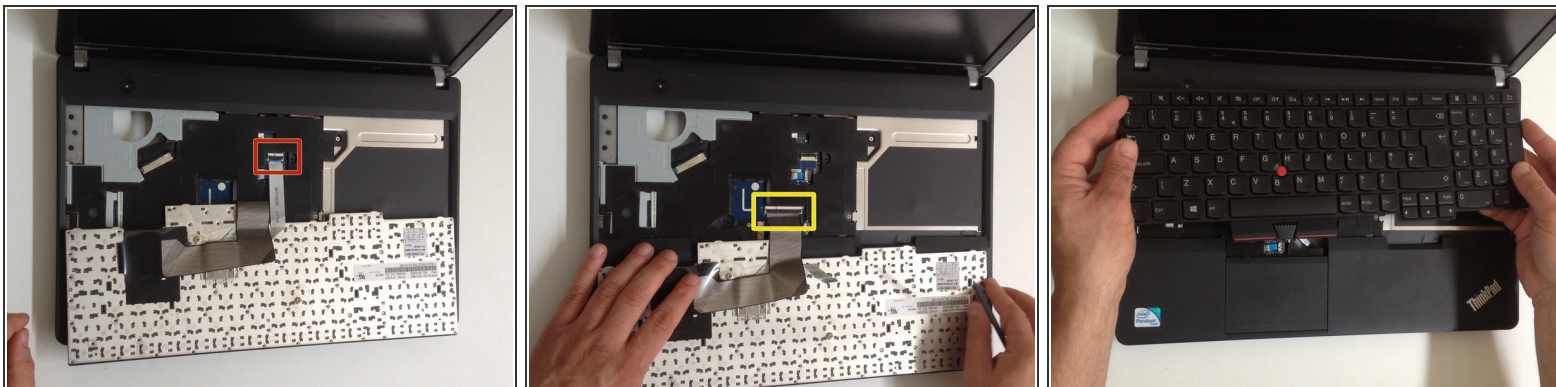

- Switch-off the Laptop and remove the battery.
- The HDD/Memory Cover is held by 3x Phillips screws. Remove them.
- Remove the Cover.

Step 2 — Keyboard

- There are 2 x screws securing the keyboard. You can find them by a small KB symbol.
- Slide the keyboard forward.
- Lift the keyboard at the bottom.

Step 3

- Under the keyboard there are two flex cables connected to the motherboard:
 - The smaller one is for the mouse buttons and the legendary TrackPoint.
 - The bigger one is for the KB.
- Disconnect them and remove the KB.

To reassemble your device, follow these instructions in reverse order.
